

Sachin Natikar

📍 Bengaluru ✉ sachinkohli633@gmail.com ☎ +91 7795174898 in Sachin Natikar

Summary

Software Developer specializing in Python, Object-Oriented Programming, and Data Structures. Experienced in backend engineering, RESTful API architecture, relational database management, and full-stack development using Django and Flutter. Knowledgeable in AWS cloud fundamentals and IoT-based embedded automation solutions. Strong expertise in software security, performance tuning, and scalable system deployment.

Education

Acharya Institute of Technology, Bengaluru	<i>Feb 2024 – Sep 2025</i>
<i>Master of Computer Application (MCA)</i>	<i>CGPA: 8.74 / 10</i>
Karnatak Degree College, Bidar	<i>Nov 2020 – Sep 2023</i>
<i>Bachelor of Computer Application (BCA)</i>	<i>CGPA: 7.62 / 10</i>

Projects

Electric Vehicle Charging Station Finder and slot Booking App.	<i>April 2025 - Sep 2025</i>
- Engineered a full-stack mobile and web solution using Flutter to identify nearby EV charging stations and support slot reservations. - Architected scalable RESTful API services using Django to manage authentication, charging station availability, and booking workflows - Configured MySQL database infrastructure for structured storage and retrieval of transactional and user records. - Established backend validation mechanisms to strengthen application security and transaction reliability.	
Smart Light Controlling using Sound. (IOT Project).	<i>March 2025 - April 2025</i>
- Constructed an automated clap-activated lighting solution using Arduino Uno and KY-038 sound detection module. - Integrated ESP8266 Wi-Fi component enabling wireless communication and remote automation control. - Programmed Python-based signal processing algorithms for sound recognition and switching logic execution. - Connected relay circuitry enabling safe electrical device automation and real-time response functionality.	

Skills

Programming Languages: Python, Java, Dart, JavaScript
Backend & Frameworks: Django, RESTful API Development
Frontend (Web Technologies): HTML, CSS, Flutter, Responsive web Design
Database: MySQL, SQL
Frameworks & Tools: Postman, Git & GitHub, VS Code, Android Studio
Core Concepts: OOP, Agile SDLC, STLC, Data Structures

Publications

EV Charging Station & Slot Booking App	<i>September 2025</i>
